

Contributor Onboarding Checklist

For new contributors to the repository — complete in order.

Setup

- Clone the repository: `git clone <repo-url>`
- Create a virtual environment: `python -m venv .venv`
- Install dependencies: `pip install -e ".[dev]"`
- Run the test suite: `pytest` — all tests must pass

Code style rules

- Line length: max **100** characters
- Type hints: **required** on all public functions

Pull request rules

- Keep PRs **small** and focused on one change
- **Tests required** for all changes
- **One approval** required before merge

Where to ask questions

- Ask in the **#dev** channel on Slack.
